Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 14 is rejected under 35 U.S.C. 102(b) as being anticipated by Iggulden et al.

Iggulden et al discloses a video recording/reproducing apparatus that shows all the limitations recited in claim 14, including the feature of recording program contribution including all program parts, such as advertising blocks on a storage medium (See Iggulden et al's claim 1, paragraph's b, and claim 4, paragraph a), the feature of storing at the location of the beginning of a specific one or undesired program parts navigation data for identifying the beginning and end of undesired program parts (See Iggulden et al's claim 12), and the feature of reproducing the program contribution without the undesired program parts as specified in the present claim 14. (Iggulden et al's claim 4, paragraphs f-g).

3. Claims 10-13, and 15, contain allowable subject matter over the prior art of record.

Response to Arguments

4. Applicant's arguments filed 6/27/05 have been fully considered but they are not persuasive.

Regarding the Applicant's argument in that the cited reference of Iggulden et al fails to disclose the feature of storing on the storage medium navigation data for identifying the beginning and end of the specific undesired program part as claimed, Examiner disagrees. It is noted such a feature argued by Applicant is present in Iggulden et al. Applicant's attention is directed to Iggulden et al's claim 4, paragraph c, and claim 12, where it is disclosed the capability of recording on the recording medium playback map containing entries which identify segments of the video signal classified as the second type (commercial messages).

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
